Cherokee Indians under the command of General Rutherford and after Rutherford's return – there were several company Expeditions carried out against the Cherokee Indians in which Colonel Carson and I served together living on the frontier and exposed to the massacre of the Indians. We were necessarily compelled to be on the watch and constant lookout to save the Country from devastation.

My memory being impaired from age I cannot distinctly recollect dates, or state the years – but after our return from the Cross Creek Expedition the battle of the Fork as it was called was fought near the mouth of North Fork of Catawba River, where Captain Reuben White and a Mr. Shelton was killed – my being sent off to bury several persons who had been killed by the Indians just before the battle prevented my being there, but I arrived at the battle ground soon after the battle was fought. This is known to have taken place in the summer of the year 1776. From that time on till the close of the war (although not under a continued military duty, yet we were compelled at intervals to make those expeditions and scouting parties which I have thus briefly stated

Shortly after his coming into Burke County – We served together in the Expedition to Cross Creek as it was then called – now Fayetteville in March 1776 organized for the purpose of putting down the Scotch who were then rising to aid the English. After General Rutherford's returned from the Nation we raised a volunteer Company under Captain Moore the same fall or succeeding winter, and went against the Cherokees forming a junction with another Company from Rutherford County under the command of Captain McFadden, I will Company being raised in what is now called Burke County. The next expedition that I recollect of Colonel Carson serving in was one in which my Brother David, was along some time after the Expedition under Captain Moore, the year I do not at this time so well recollect. I recollect that Henry Hiland was out at the same time, I was not myself along but I know of these men going out Colonel Joseph McDowell of the Pleasant Gardens as well as recollected was out at the same time. Just before the close of the war and all Army under the Command of General Rutherford was marched to Wilmington in which Colonel Carson was a volunteer.
